3. In addition to the action indicated above, I am particularly concerned about the amount of time required to issue needed regulatory material, particularly with regard to the time spent in its coordination. I fully appreciate the value of coordination, but this should not and must not delay unduly the issue of these publications. Accordingly, I desire that the DD/S, in collaboration with the DD/P and the DD/I, review this as

a specific problem and institute proper corrective measures as soon as practicable. The DD/S will provide me with a report of action taken by 15 December 1956 and a follow up report on the effectiveness of such action by 15 March 1957.
